

# RBM Winegrowing Trailer Range

Our RBM range is specially designed for transporting mechanically harvested vine crops. The current trend towards winegrowers grouping together to form wine cooperatives means longer journeys, which in turn increases demand for high-volume loads. Our vehicles can carry up to 100 hl, and even our largest models come with standard road wheels.

### Standard model

- One-piece steel body
- Interior coated with food grade paint
- Standard watertight door (lever-action opening from below)
- Anti-spill edge
- Drawbar adjustable to different heights
- Mechanical and hydraulic brakes
- Lights, approved for road use - 25 km/h

### Options available

- Automatic door - opens as trailer tips
- Spring-loaded towbar
- Lift-jack or hydraulic parking stand
- Double bottom
- Tarpaulin bow cover system
- Stainless steel model
- Other extra options available (on request)
