

# Low-bed Trailer Range

Our low-bed trailers are robust and simply designed. With a wide selection of payloads and sizes to choose from, you can carry a large range of different types of equipment, extending from mini excavators to power shovels. They even come fitted out with loading ramps or tipping flatbed trailers.

### Standard model

Simple, smooth flatbed  
 Mechanical and hydraulic brakes  
 Lights, approved for road use - 25 km/h

Depending on the model:  
 Stabiliser feet  
 Side edging (80 mm)

### Options available

Bulb plate floor  
 Rotating drawbar
