

PRODUCT DESCRIPTION

R.SD / R.SDE Direct Harvesting Range

The direct harvesting trailers in our R.SD and R.SDE range are designed for those with more challenging needs - namely those seeking to maintain the quality of the grapes from the vine all the way to the wine cellar. The variable-speed worm-type conveyor system ensures that the grapes take the smoothest possible path and remain unspilled. They come in standard or lifting models, in steel or stainless steel.

Standard model

One-piece steel body with an Archimedes screw (diameter – 300 mm)
 Hydraulic engine drive by dual action tractor
 Standard door (lever-action opening)
 Mechanical and hydraulic brakes
 Lights, approved for road use - 25 km/h

Options available

Rotating drawbar
 Drainage tank
 Rear lever-controlled power unit, reverse switch and flow-rate control device
 Hydraulic gear motor drive
 Hydraulic door

Stainless steel model

Model	GVW (kg)	Max Volume (m3)	Length x Outside Width x Height (body shell)	Loading Height	Wheels
Standard direct harvesting MODEL					
R 250 SD	3200	2,4	2m50 x 1m30		205 x 16
R 300 SD	3700	3,2	2m75 x 1m50		10.0/75-15.3 14 ply
R 400 SD	5200	4,5	3m00 x 1m90		11.5/80-15.3 14 ply
R 500 SD	5990	5,8	3m00 x 2m00	1m82	11.5/80-15.3 14 ply
Lifting direct harvesting MODEL					
R 250 SDE	3200	2,4	2m50 x 1m30	1m53	205 x 16
R 300 SDE	3700	3,2	2m75 x 1m50	1m56	10.0/75-15.3 14 ply
R 400 SDE	5200	4,5	3m00 x 1m90		10.0/75-15.3 14 ply
