

## PRODUCT DESCRIPTION

# E2M Grape Harvest Lifting Trailer Range

We have a range of watertight lifting and tipping trailers for winegrowers, specially designed for hand harvesting (width upwards of 1.5 m) or mechanical harvesting, using a simple Z-type lifting system, and a hydraulic door control system.

### Standard model

- One-piece steel body
- Interior coated with food grade paint
- Hydraulic door control system
- Anti-spill edge
- Drawbar adjustable to different heights
- Mechanical and hydraulic brakes
- Lights, approved for road use - 25 km/h

### Options available

- Spring-loaded drawbar
- Lift-jack or hydraulic parking stand
- Tarpaulin bow cover system
- Stainless steel model
- Other extra options available (on request)
