

Mini-tractor Drop Side Trailer

The mini-tractor range covers small vehicles modelled on the RB2 range. Built on the same design, they are widely renowned for their sturdiness. These are just the vehicles you need for all those smaller-scale jobs such as land terracing, pruning or hauling wood... It's the ultimate, hard-wearing trailer that never gives up on you - one that you'll pass from generation to generation.

Standard model

Flatbed trailer - Drop sides

Hydraulic cylinder tipping mechanism controlled from the tractor

Standard door with manual locking device

Mechanical and hydraulic brakes (**dual hydraulic line + mandatory ABS connection on the tractor**)

Lights, approved for road use - 25 km/h
