

Flatbed Trailer Range

Our RP range covers a choice of flatbed trailers that are semi-mounted, and available as either 2 or 4-wheel models, depending on the load capacity. They are equipped with harvest ladders that are either tilted or straight, and specially adapted for fruit farming / market gardening . We have designed them to be as low to the ground as possible to make it easier to load and unload and to ensure greater stability.

Standard model

Simple, smooth flatbed

Mechanical and hydraulic brakes (dual hydraulic line + mandatory ABS connection on the tractor)

Lights, approved for road use - 25 km/h
