

ROCHE Grape Harvest Container + Bucket Range

Chariot petit-train

After years of experience working for the winegrowing sector, we have developed a highly practical range of accessories for grape harvesting.

Thanks to our grape harvest bucket, which can be attached to the 3-point hitch of your tractor, it's quick and easy to work along each vine row and empty the grapes into your transport vehicle.

Our container is a watertight tank specially designed for grape harvesting. Moreover, it can be adapted for use with all your flatbed trailers.

Grape harvest container

Interior coated with food grade paint

Standard watertight door (lever-action opening from below)

Anti-spill edge

Extra options

* Stainless steel model available
